Alcohol & Drug Programs

Student Wellness empowers students to make healthy decisions about their substance use behaviors that affect them and the Carolina community as a whole. We focus on reducing the high risk behaviors and promoting safe, legal, and responsible actions. We utilize a non-judgmental harm reduction approach to preventing alcohol, tobacco, and other drug abuse, which aims to reduce the negative consequences of high-risk alcohol and other drug use on the Carolina Community.

Our services include:

- EverFi Modules
- **BASICS** [1]: a non-confrontational program to help students identify risks associated with their alcohol and/or drug use and ways to eliminate or reduce these risks.
- Alcohol and other drug educational workshops for student groups and organizations. [Request a workshop here!](https://studentwellness.unc.edu/resources/request-help/wellness-request-form)
- **Carolina After Dark (CAD)** [3]: Late night programs and events, Thursday-Saturday.
- **The Carolina Recovery Program** [4]: A community-based program that supports students in entering and maintaining substance use recovery while on campus.
- **Campus Community Coalition** [5]: Partnership and initiatives to reduce substance use, including data collection and policy development.
- **Assessment and Research** [6]: Including CORE Survey and National College Health Assessment (NCHA).
