Graduate & Professional Student Programs

Student Wellness recognizes to enhance the health of graduate and professional students, programs and Initiatives must address the issues which most commonly impact the wellbeing of this student population.

Graduate and professional students experience a different academic dynamic, essentially because they are more isolated and operate on a more individualistic paradigm. As older students, oftentimes with families and/or with professional work obligations and children, there are different sets of concerns and emotional burdens. We provide proven and effective programing to supporting a healthy life experience and helping improve academic performance.

This spring Wellness is offering a variety of graduate specific programming including:

Virtual Wellness Circles

While stress is a normal part of life, exposure to elevated levels of stress can accumulate and result in a buildup of allostatic load. Graduate students are particularly vulnerable to the adverse health effects that result from allostatic load build up. Join Shahnaz Khawaja to engage in activities that reduce stress and foster resilience.

- **Session 1- Fostering Resilience Through a Personalized Wellness Plan**
  1/26/21 10am-11am [1]

Sister Talk After Dark (S.T.A.D.)

Sister Talk After Dark is designed to increase a sense of belonging, as well as, to give women of color, specifically, Black identified Graduate and professional women, the space, tools and resources to successfully navigate UNC-Chapel Hill. In addition to being a safe landing space for Black women on campus, Sister Talk After Dark provides several learning and developmental opportunities for a population that is historically underserved.

Sister Talk After Dark promotes and enhances self-efficacy, self-awareness, and self-advocacy, among other protective factors for Black women at UNC. This group also aims to strengthen resiliency among this cohort of students, as they exist at an intersection of gender and race which impact their experiences at a historically white institution (HWI).

?Meets Virtually: Every first Tuesday of the month 5p-6:30p (ZOOM)
To join, email: dholman@email.unc.edu [11].

R.E.A.L TALK (Resiliency, Education And Leadership) Talk

R.E.A.L Talk provides a space for BIPOC and male identified individuals on UNC?’s campus to engage, develop their sense of belonging, develop their personal agency and develop a growth mindset, develop tools for honing resiliency and grit. Graduate and professional male students of color help facilitate this cohort of students while in the process gain leadership skills and develop strong mentoring bonds. The year 2020-21 will be composed of upper class participants, as well as, first year students. No topic is off limits, rather broaching courageous discourse will aid in participants? growth, exploration and self-actualization.
To join contact dholman@email.unc.edu [12]
