

Sister Talk After Dark

Sister Talk After Dark (S.T.A.D.) Grad Graduate and professional students experience a different academic dynamic, essentially because they are more isolated and operate on a more individualistic paradigm. As older students, oftentimes with families and/or with professional work obligations and children, there are different sets of concerns and emotional burdens.

This group, like Sister Talk, aims to increase a sense of belonging and resiliency, as they exist at an intersection of gender and race which impact their experiences at a predominantly white institution (PWI). This group is the graduate and professional counterpart to Sister Talk.
